\$22B

**Peak Valuation
Now: \$0**

\$1.2B

**Term Loan Dispute
Under NCLT**

₹80 Cr

**Aakash FY22 Profit
Before BYJU'S drag**

BUSINESS MODEL

\$22B → ~\$0

Valuation Destroyed

HSBC valued Prosus 10% stake at zero

₹2.73 spent

to earn ₹1 (FY22)

Catastrophic CAC — unsustainable burn

97% haircut

on US acquisitions

Epic: \$500M→\$95M | Tynker: \$200M→\$2.2M

<5% stake

left in Aakash

Diluted from 25.7% via rights issue 2026

2021

Acquires
Aakash
₹7,300 Cr deal

2022

Audit delays &
accounting
crisis

2023

\$1.2B loan default
GLAS Trust sues

2024

Insolvency filed
500+ layoffs

2025

US assets
sold
at 97% loss

2026

NCLT resolution
Aakash <5%
stake

CFO'S MANDATE: FINANCIAL RESTRUCTURING

1. DEBT TRIAGE

- Restructure debt by categorizing liabilities and negotiating a 50% NCLT write-off for unsecured creditors.
- Liquidate non-core assets and remaining Aakash stakes to facilitate maximum recovery for immediate repayment.

2. CASH FLOW SURGERY

- CAC target: reduce from ₹2.73 to ₹0.60 per ₹1 earned in 18 months
- Stop all marketing spend — shift 100% to inbound/product-led
- Freeze all non-core hiring; retain only critical product & tech staff

3. REVENUE RECOVERY

- Expand high-margin physical tuition centers for consistent cas flow.
- Convert free GeoGebra users into low-cost premium “Pro subscribers”

PROJECTED CAC RECOVERY

₹ spent per ₹1 earned

2-YEAR PHASED ROADMAP

PHASE 1 TRIAGE

Months 1–6 | Q2–Q3 2026

AAKASH

- Secure independent legal entity status.
- Restore legacy brand and operations.

BYJU'S

- Cease marketing and liquidate assets.
- Asset divestment initiated for debt recovery

KPI: 0 center closures | Debt admitted < ₹5,000 Cr

PHASE 2 STABILIZE

Months 7–12 | Q4 2026–Q1 2027

AAKASH

- NEET-first brand re-anchored
- Faculty retention & trust restored

BYJU'S

- B2B/B2C Financial Literacy
- Monthly P&L transparency reports

KPI: Aakash EBITDA positive | BYJU'S burn < ₹50 Cr/month

PHASE 3 REBUILD

Months 13–18 | Q2–Q3 2027

AAKASH

- Expand to 50 new Tier-2 cities (franchise model)
- Achieve ₹1,800 Cr revenue target

BYJU'S

- Zerodha FinTech pivot implemented
- Begin formal Zerodha partnership conversations
- First debt repayment tranche to creditors

KPI: FinED 1M MAU | Aakash net profit restored

PHASE 4 SCALE

Months 19–24 | Q4 2027–Q1 2028

AAKASH

- 500 centers, IPO preparation begins
- Aakash Medical route fully scaled

BYJU'S

- Zerodha FinTech ecosystem partnership live
- Full company: first net profit quarter

KPI: BYJU'S FinED ₹500 Cr ARR | Full NCLT debt settled

STRATEGIC BLUEPRINT: DUAL-TRACK DECOUPLING

TRACK 1: AAKASH INDEPENDENT

*Core Thesis: Return to what made Aakash great.
Separate legal & operational entity. NEET-first.*

Brand: NEET-First Excellence

Re-anchor to 325+ physical centers as premium medical coaching hubs. Faculty stability = trust.

Revenue: High-ticket milestone fees

Retain ₹1,491 Cr FY22 revenue model. Results-based fee structure builds parental confidence.

Digital: Offline-led hybrid

Aakash Digital as supplement, not replacement. Compete with Allen's hybrid model directly.

Governance: Independent board

Ranjan Pai (Manipal, ~40-58% stake) as anchor. No BYJU'S interference in operations.

TRACK 2: BYJU'S PIVOT — FinED

*Core Thesis: Stop trying to be an EdTech.
Pivot to Financial Education — a wide-open market.*

Brand: BYJU'S FinED

Financial literacy for India's 400M aspiring middle class. B2B (schools, colleges) + B2C (app).

Revenue: Low-CAC subscriptions

₹199–499/month model. No more spending ₹2.73 to earn ₹1. Subscription > one-time fees.

Zerodha Pathway (Phase 3+)

Partner with Zerodha ecosystem post-stabilisation. Use credibility of Zerodha brand to launch FinED.

Asset Divestment First

Liquidate remaining global assets. Use proceeds to clear NCLT-admitted creditor claims first.

DECOUPLE

BYJU'S FinED — PATH TO PROFITABILITY

Aakash is independent & already profitable — this slide is BYJU'S FinED only

BYJU'S FinED REVENUE STREAMS (₹ Crore)

BYJU'S FinED YEAR-2 TARGETS

Total ARR (Q1 2028)	₹510 Cr
B2C subscribers	3.5M+ users
B2B schools onboarded	1,200+
CAC vs FY22	▼ 78%
EBITDA margin (Year 2)	>15%
Debt repaid via FinED ops	₹150 Cr

WHY ZERODHA WILL SAY YES

- FinED reaches 3.5M users Zerodha can convert
- BYJU'S brings distribution; Zerodha brings credibility
- Approach only after debt < ₹3,000 Cr & clean audit

BRAND RESTORATION & GOVERNANCE REFORM

BRAND TRUST INDEX (2021 → 2026)

BYJU'S FINED BRAND REBUILD PILLARS

Radical transparency

Monthly independent audit → public P&L dashboard. Investors see numbers before the media does.

Outcome-first messaging

Replace 'sales-led' pitch with proof. NPS scores, placement rates, student success stories front-center.

Name divorce from BYJU'S

FinED brand stands alone. No BYJU'S logo on product. Fresh identity = no legacy toxicity.

GOVERNANCE REFORM ACTIONS

01

Independent Leadership

Shift financial control from founders to outside experts.

02

Forensic audit

Conduct a one-time audit and share results to start fresh.

03

Creditor committee seat

Give lenders observer rights. Restores trust faster than any PR campaign.

04

ESOP restructure

Use new stock options to keep top talent and align their goals.

THE EDTECH BATTLEFIELD

COMPETITOR HEALTH INDEX

Physics Wallah

Profitable. Low-CAC model. 10M+ users.

Allen Career Institute

Dominant offline. Expanding digital.

Unacademy

Restructuring. Layoffs. Still burning.

BYJU'S + Aakash

Insolvency. <5% Aakash stake. No trust.

INDIA EDTECH MARKET

Market Size (2025)	\$7.5B
--------------------	--------

Projected (2030)	\$30B
------------------	-------

NEET Aspirants/yr	2.4M+
-------------------	-------

JEE Aspirants/yr	1.2M+
------------------	-------

PW Monthly Fee	₹199–999
----------------	----------

Old BYJU'S Fee	₹50K–80K
----------------	----------

Key Insight: The market is growing. The problem is BYJU'S execution, not demand.
